"FURIOZO
MAN LOOKING
FOR TROUBLE"

Show presentation

ABOUT THE SHOW

Furiozo is an amazingly bizarre and absurd **solo comedy clown** which depicts the theme of **toxic masculinity**. It is a satire and a parodic portrayal of the many toxic behaviors present in our modern culture.

Who is Furiozo?

The character, Furiozo, is a hooligan who we met while he is pursuing his daily activities- petty theft, police pursuits, and having fun in the clubs. On one hand he is the personification of a typical bloke from your neighborhood, on the other hand, he is a beast, full of primal energy that frightens but also seduces the audience.

It is a **contemporary clown show**, without words, allowing the audience to form their own opinion of who Furiozo is. The show contains **a lot of audience interaction** which allow the participants to feel included in the story, and to be a part of the completely absurd moments. When a woman appears in Furiozo's life - Angela, the audience discovers something human in the main character of the beast.

WHY THIS SHOW?

The spectacle in a satirical way portrays many aspects of toxic masculinity, and at the same time awakens a longing for free, untamed energy and helps the audience to connect with their own. I created this show because I have not often seen shows depicting this difficult theme and have not found many comedy shows played by men that reflect on the subject of masculinity - both toxic and positive. I would like to change this.
